BY PASSION

# EXCEPT IONAL CRAFTM ANSHIP

AN ÉLITE  
COMPANY  
WITH AN  
ARTISAN  
SOUL

This is Tinosana, known worldwide for the production of furniture for hotels, cruise ships and community complexes of great prestige. Founded by Costantino Sana, the company is now embarking on a new journey with Costantino's children, Gianpaolo, Guido, Chiara and Aurora.

The company was founded in 1965, and for over 50 years has represented Italian production excellence, stemming from the encounter between artisanal know-how and cutting-edge technology. Its wood and design "masters" have been sought out by the best facilities seeking perfection in every detail.

**TINOSANA BELIEVES IN THE IMPORTANCE OF GENERATING ADDED VALUE THROUGH INNOVATION AND KNOWLEDGE, AIMING FOR INCREASINGLY AMBITIOUS PROJECTS.**

This winning formula ensures that tradition is always up-to-date and that the customer is always satisfied. This is the challenge that Tinosana takes on every day. A mission it pursues with courage, passion and competence: the three main values that have always underpinned the work of Costantino Sana, his children and all those who work in the company.

# HOTEL DIVISION

One of the most important sectors for Tinosana has always been the hotel industry, where the company boasts

**PRESTIGIOUS  
COLLABORATIONS  
WITH LEADING  
NATIONAL AND  
INTERNATIONAL  
HOTEL GROUPS.**

Since the advent of Hotel Design, the Company has been able to develop original, creative solutions - and always of the highest standard - to respond to the needs of customers and their architects. All of Tinosana's projects are characterized by careful research and design work, ensuring effective and professional support to architects and the highest customer satisfaction. Tinosana has consolidated its know-how over the years with high-end projects both in Italy and abroad.

## TINOSANA'S PORTFOLIO BOASTS A LARGE NUMBER OF PRESTIGIOUS PROJECTS

That reflect the company's extraordinary professional skills and the exceptional quality of its work.

DI

# SHIP VISION

SINCE 1989,  
TINOSANA  
HAS BEEN  
RESPONSIBLE FOR  
THE FURNISHINGS  
OF SOME OF THE  
FINEST CRUISE  
SHIPS IN THE  
WORLD.

Collaboration with leading European Shipyards and with the best Architectural firms in the industry has given rise to a number of majestic and spectacular luxury creations.

All of these cruise ships are symbols of freedom, adventure and discovery, but also of solidity and professionalism, reflecting the company's extraordinary professional skills and the exceptional quality of its work.

Tinosana is specialized in the production of

QUALITY  
FURNITURE FOR  
PRESTIGIOUS  
BOUTIQUES.

# DI VISION YACHT

FOR SOME YEARS NOW, TINOSANA HAS BEEN INVESTING SIGNIFICANT RESOURCES IN THE YACHTING INDUSTRY

an area requiring painstaking work, a drive for innovation and a high level of specialization in order to develop elegant and efficient projects capable of withstanding every sea condition.

The entire wood supply chain is involved in the production of nautical yacht equipment, with processes that derive from long-standing traditions combined with the latest trends. Wood provides characteristics such as beauty, durability, strength and ductility, creating high quality and aesthetically refined furnishings. And all this paired with the utmost attention to detail.

## PRESTIGIOUS PROJECTS

*Riva 56<sup>ft</sup> Rivale & Riva 66<sup>ft</sup> Ribelle*

Tinosana realizes furniture of qualitative high-level and aesthetical prestige, with

MAXIMUM  
ATTENTION TO  
THE DETAIL AND  
CARE OF THE  
PARTICULAR.

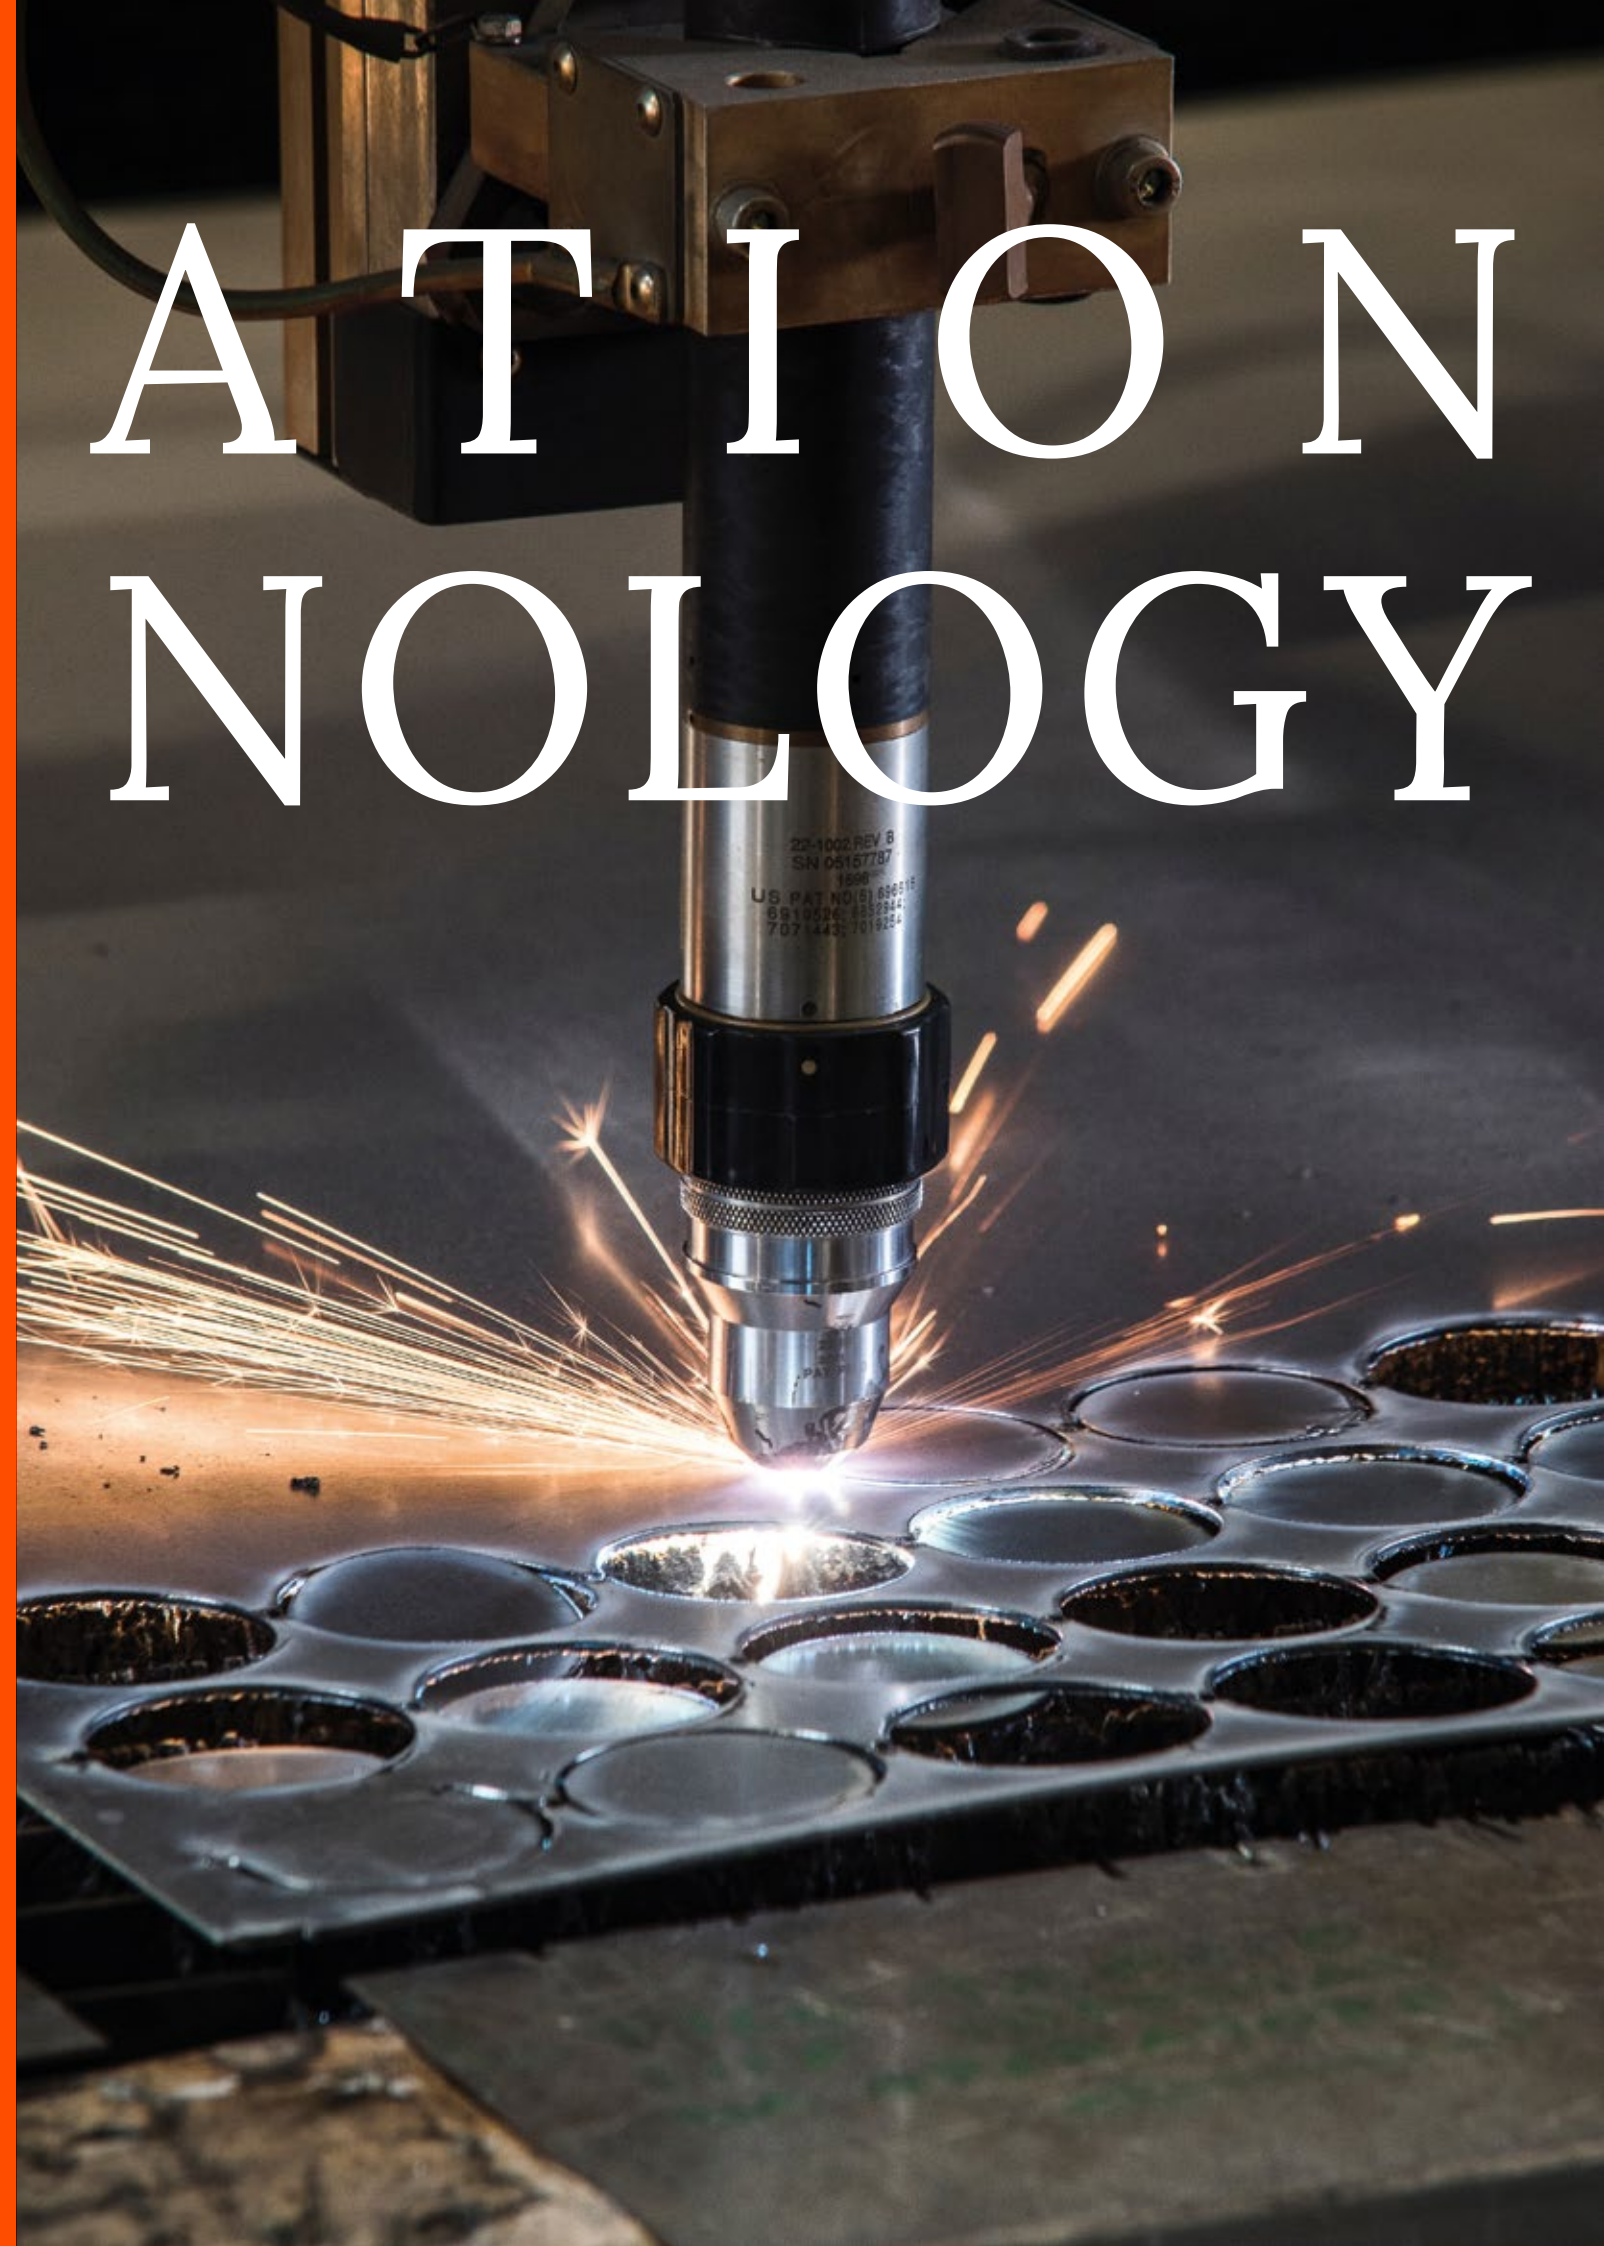

INNOV  
& TECH

ATION  
NOLOGY

EVER AT THE  
FOREFRONT OF  
PRODUCTION,

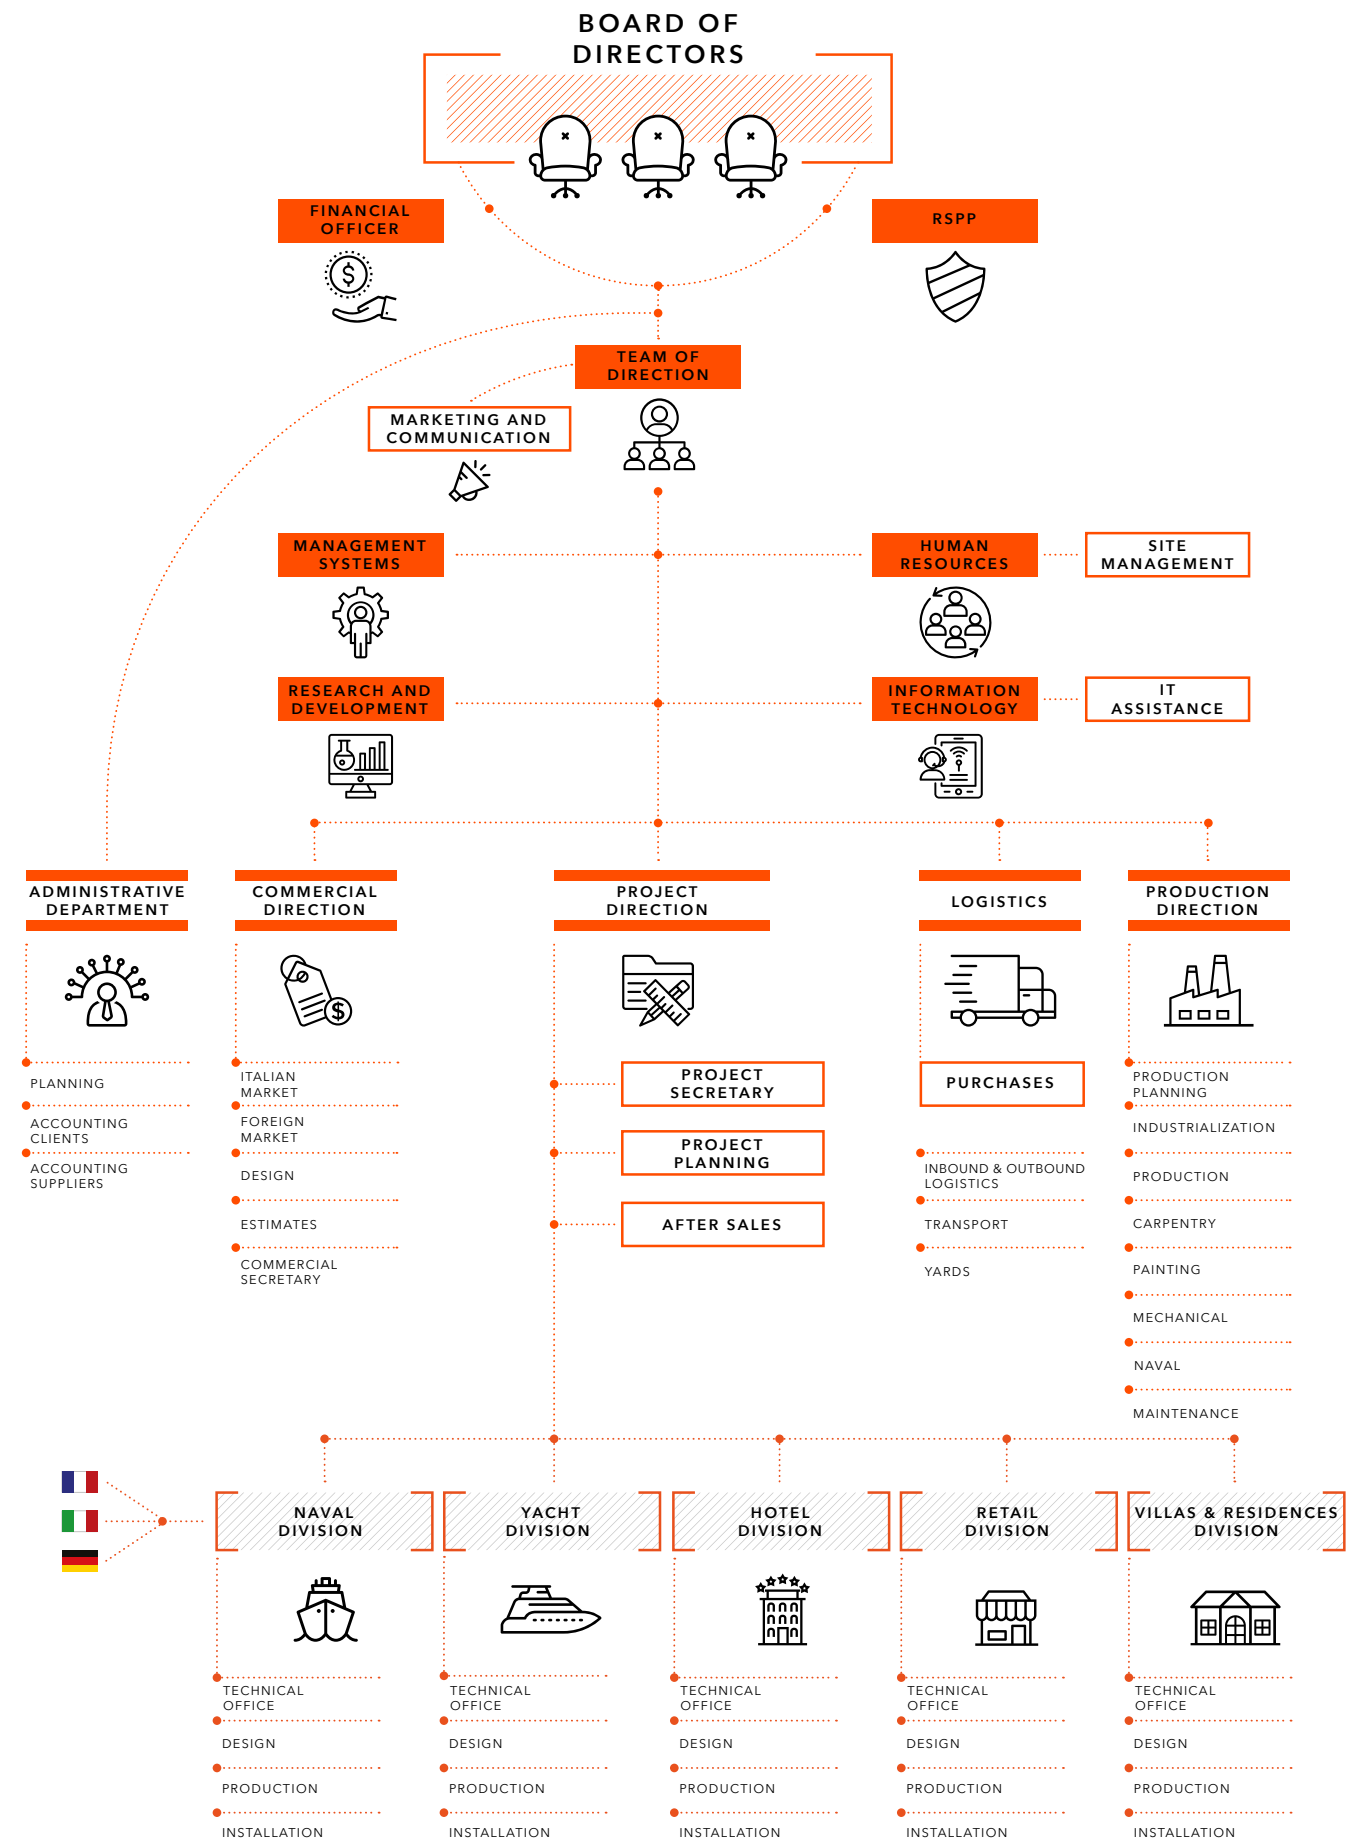

Tinosana responds to the specific needs of every project through its ability to coordinate with suppliers and its preliminary design and planning process, offering an innovative and competitive service in terms of lead times and costs.

# PEOPLE

## ORGANIZATION CHART

AT TINOSANA, HUMAN RESOURCES HAVE ALWAYS MADE THE DIFFERENCE.

This is why the company invests in professional training, enhancing its staff's skills day after day. Because to be the best, you need to be able to count on talented people who work efficiently and with determination, and are ready to face ever-changing and increasingly challenging projects.

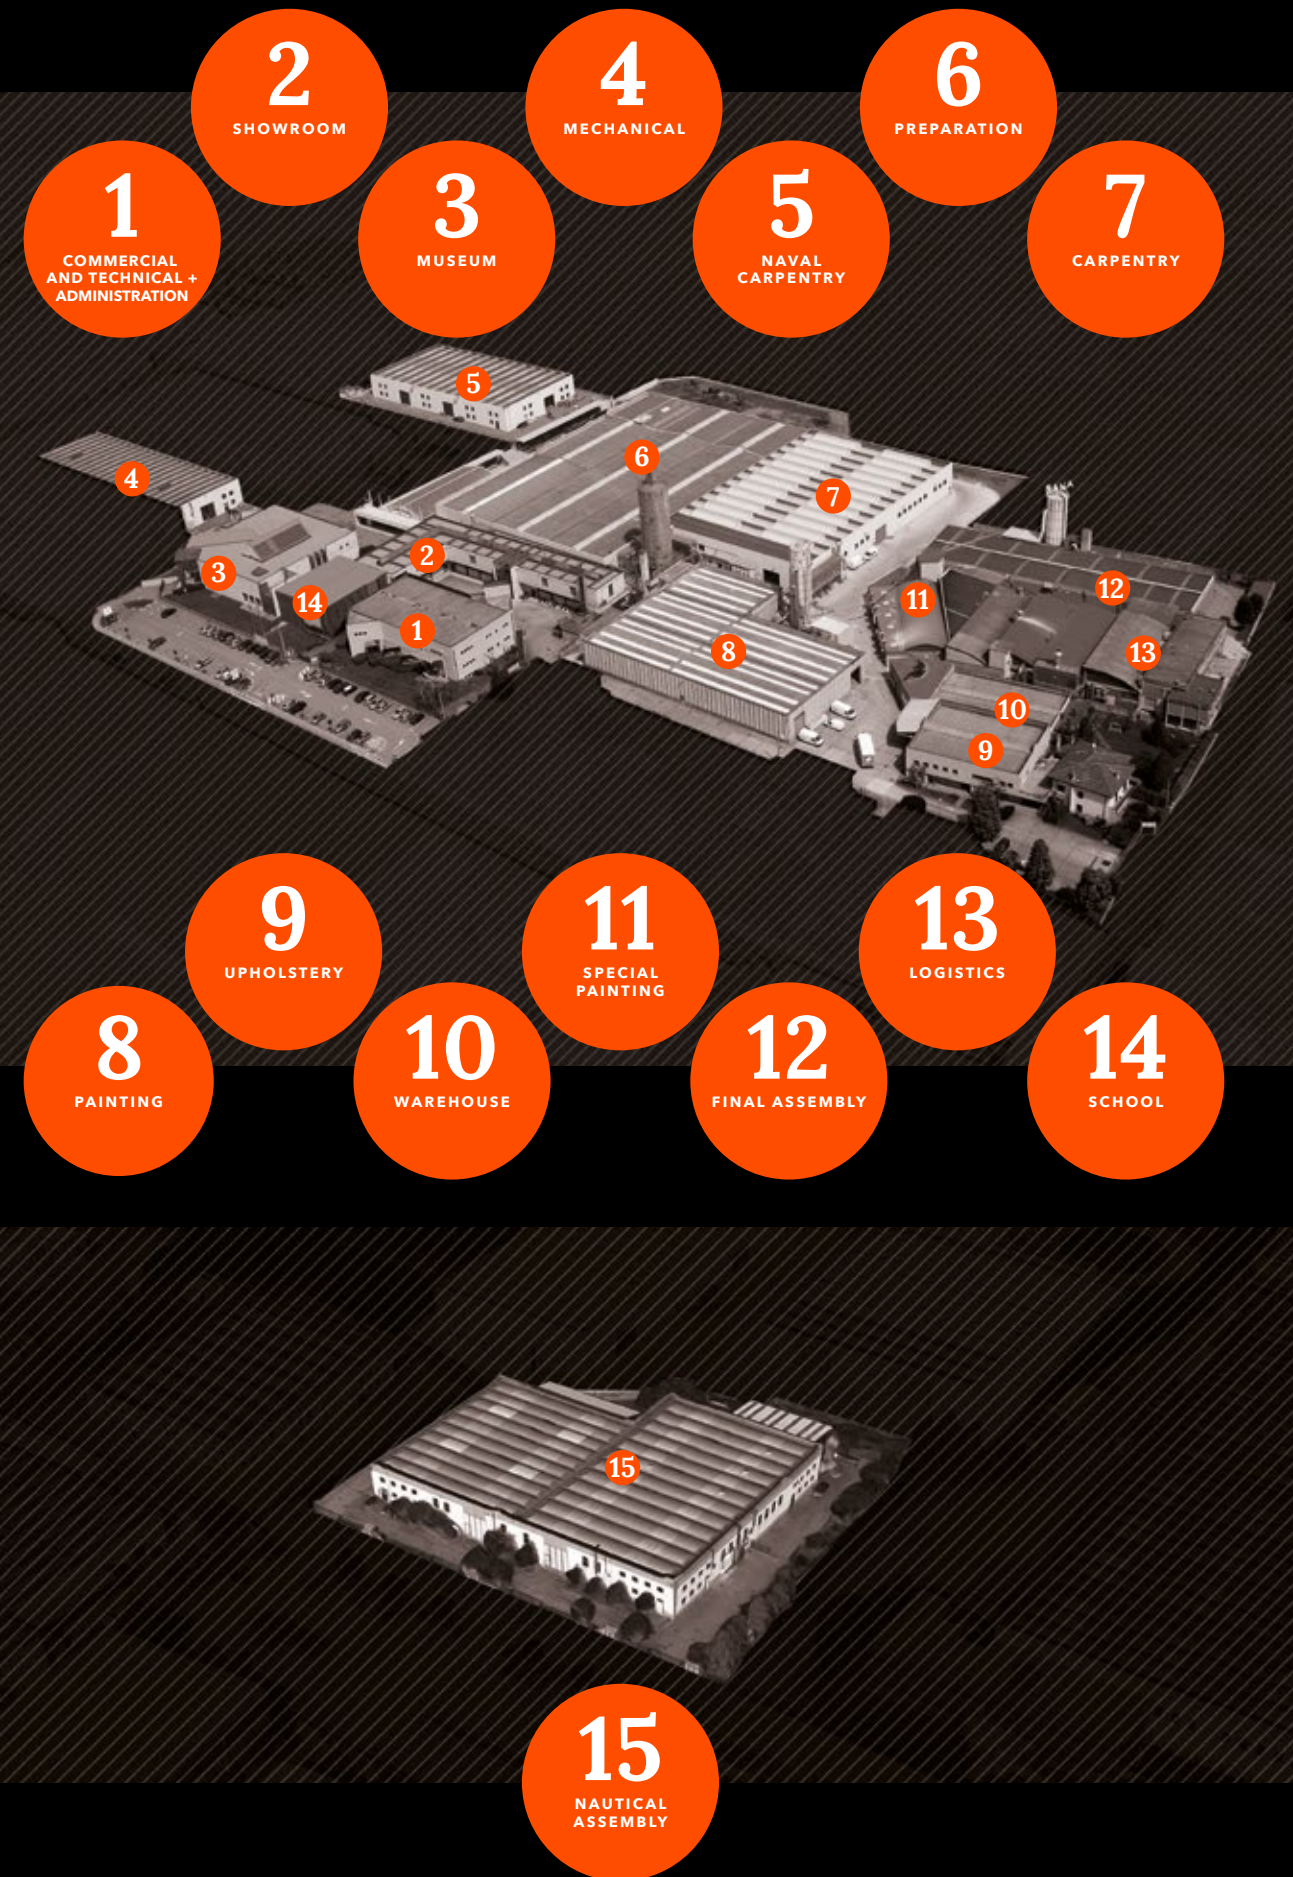

# HEAD QUAR TER

## CORPORATE DEPARTMENTS

THE EXCELLENCE OF  
TINOSANA'S FURNITURE  
DERIVES FROM THE  
ENCOUNTER BETWEEN  
INNOVATION AND  
PROFESSIONALISM.

To this end, the Company invests constantly on increasing production efficiency, renewing machinery and reorganizing departments. In 2009, Tinosana invested heavily in technology, thus expanding production. Today, the Company can count on over 60,000 sqm of production space, split into 7 departments, with more than 180 employees who work hard, day after day, to create the best furniture for hospitality projects.

Over the past ten years, Tinosana has consolidated its presence internationally with commercial agents in France, Israel, Ireland, Switzerland and the United Arab Emirates. In 2022 the firm opens a showroom in Dubai where the excellence of Tinosana production can be touched by local customers.

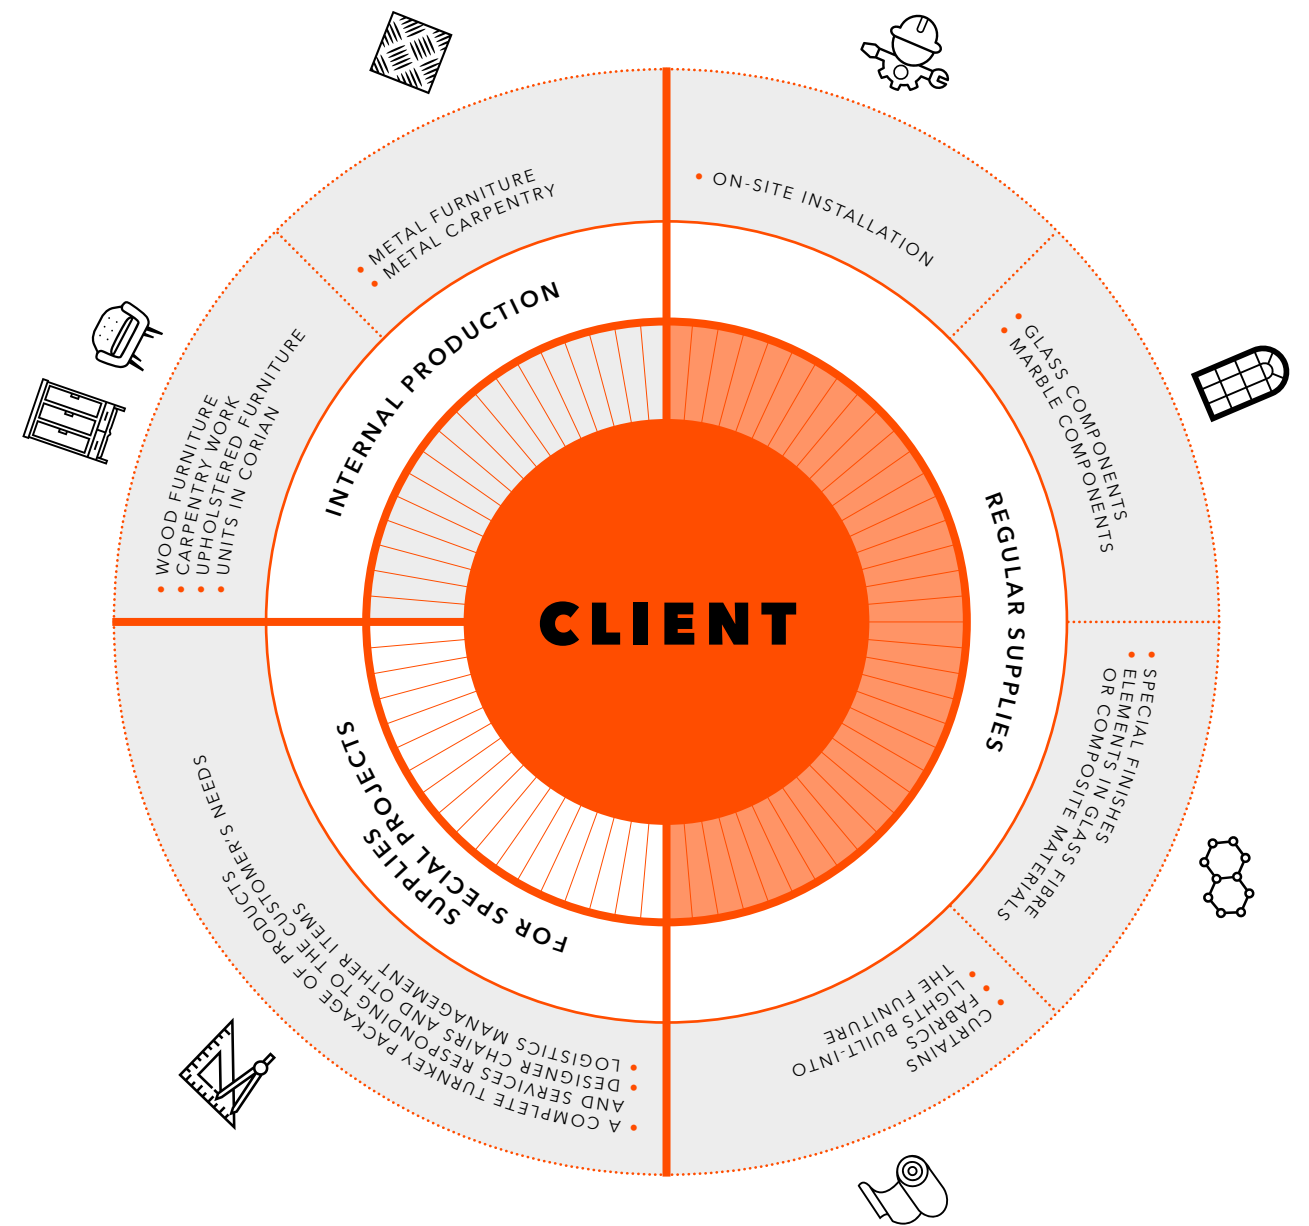

# PROJECTS

PRODUCTION  
AND SUPPLIERS

## TINOSANA SUPPLIES "TURNKEY" PROJECTS.

The standard method used by the company in the Naval market and, upon request, in the hotel industry. Tinosana meets every need through qualified professionals, a solid corporate structure and a network of selected suppliers, taking charge of projects either entirely or in part, depending on the request, and offering top-rate services at all times.

Tinosana can also create bespoke services, aimed at achieving maximum customer satisfaction, based on a reliable network of suppliers.

# FLOW

## PRODUCTION

### COMMERCIAL PHASE

The architect's design is evaluated by our project design office and then by the commercial department, which provides our best quote, taking into account the following:

- when required, value engineering is applied, to suggest possible alternatives that affect the price
- samples and mock-ups can be provided on request
- the phase ends when the contract is signed

### DESIGN PHASE

The Project Manager entrusted with the job kicks off the project as follows:

- on-site survey and collaboration with the construction site
- presentation of the drawing for production purposes
- presentation of the final samples and drawings signed by the customer

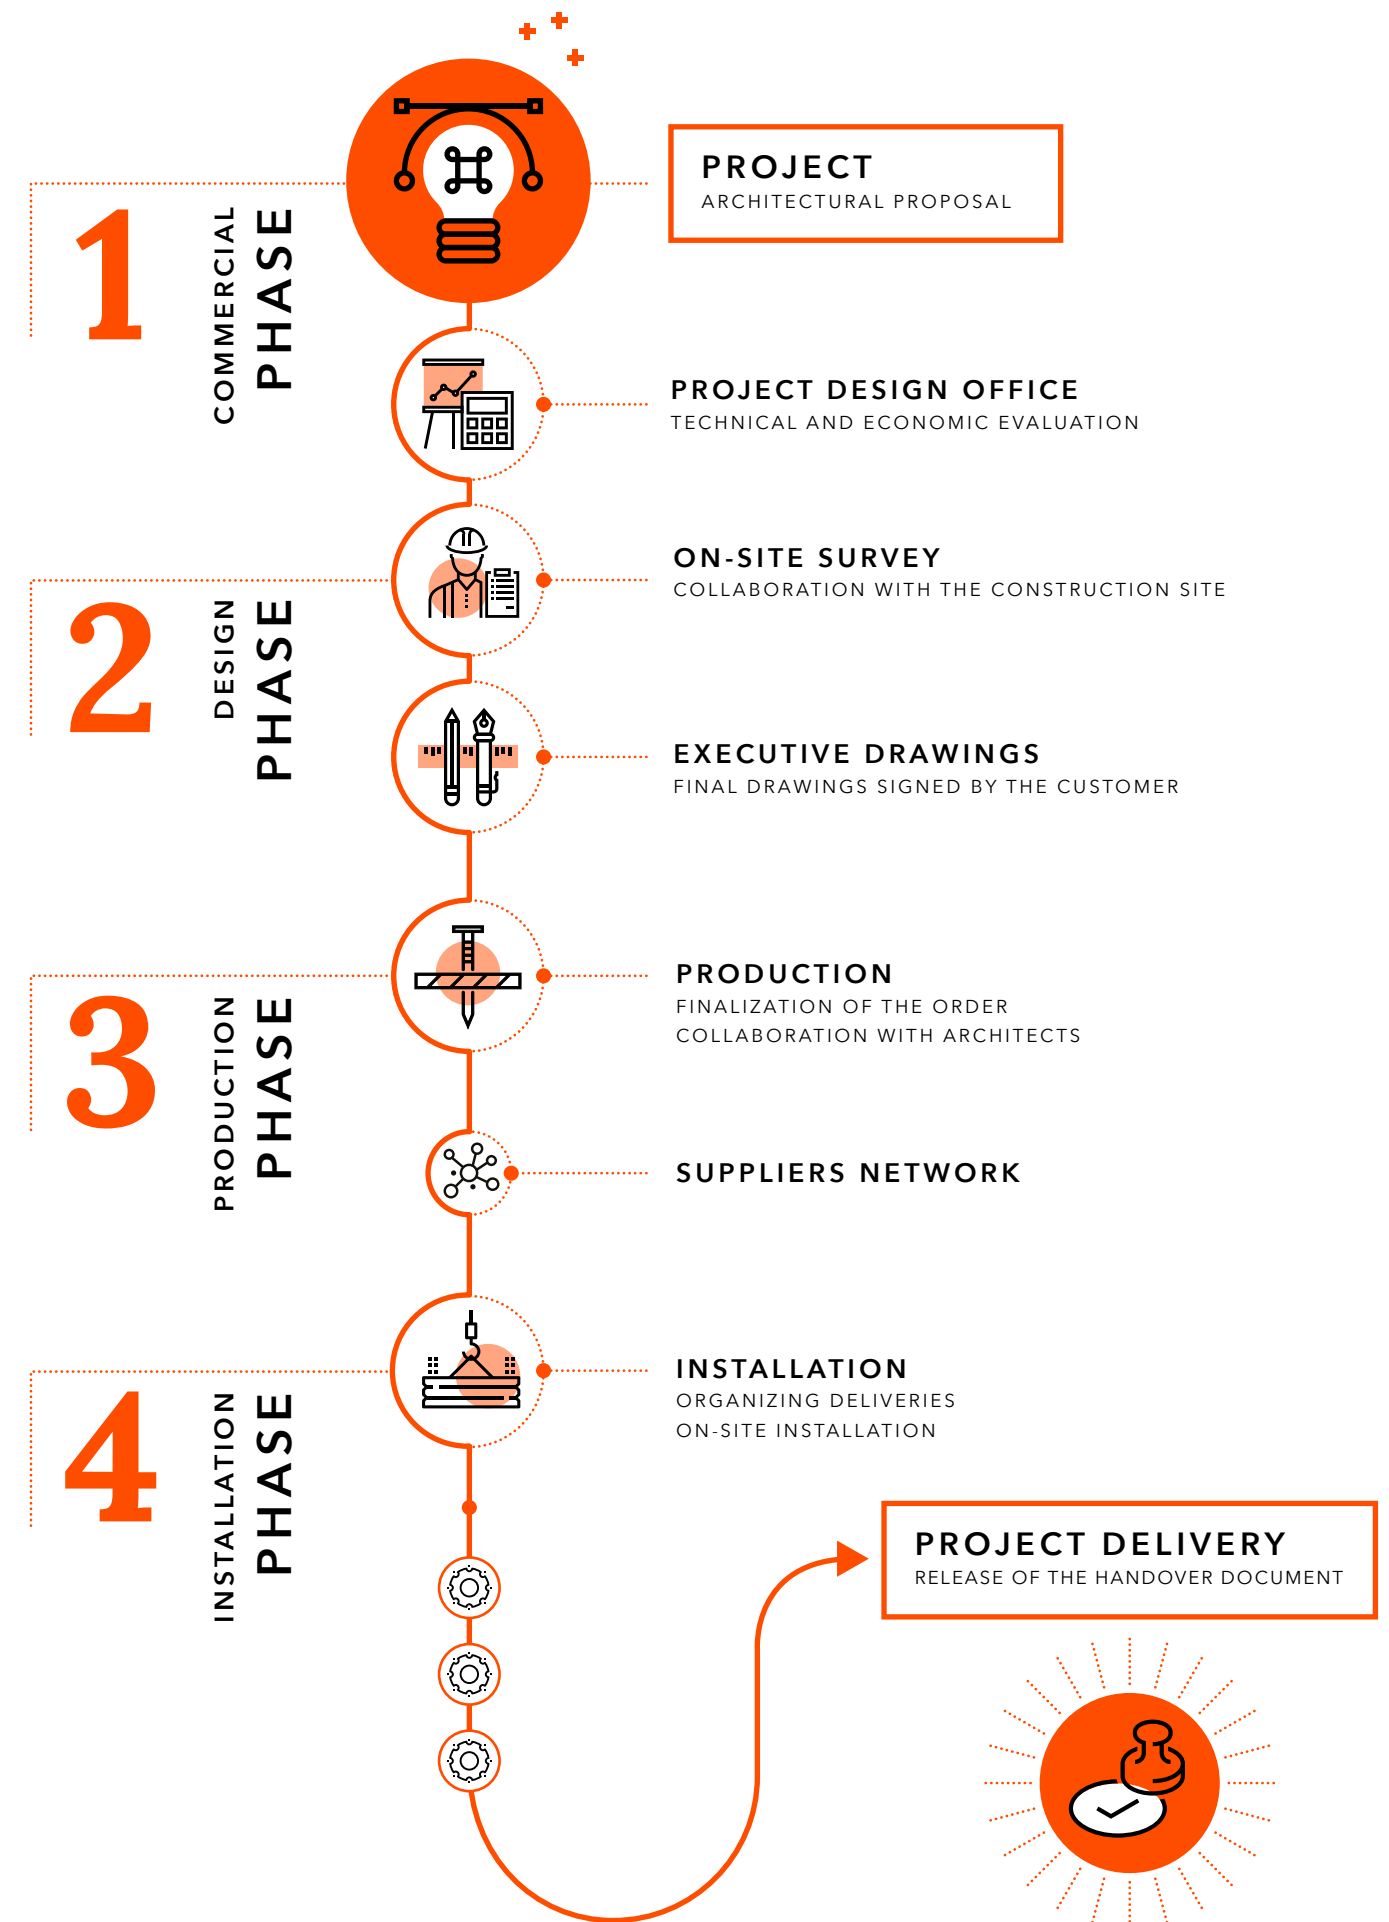

### PRODUCTION PHASE

Production takes place in the company's facility:

- with 5 main departments for completing the project
- a network of dependable suppliers
- partnership with architects

### INSTALLATION PHASE

- a calendar is established for the delivery of materials
- installation on site
- the project concludes with the issuing of the delivery document

# CERTIFI

# CATIONS

AT TINOSANA, QUALITY HAS ALWAYS BEEN SYNONYMOUS WITH ATTENTION TO DETAIL, CAREFUL WORKMANSHIP AND CARE FOR CUSTOMER SATISFACTION.

This has meant that since 1999 the company has been run with the help of a Quality Management System, which complies with the UNI EN ISO 9001 standard. This has been supplemented in recent years by a Safety Management System that guarantees employees a safe working environment. Thus, in 2010, in addition to UNI EN ISO 9001 certification, Tinosana also obtained certification to the standards outlined in BS OHSAS 18001, migrating to the new UNI ISO 45001 in November 2020. The company is also committed to the environment and in 2019 obtained Chain of Custody (CoC) certification, which guarantees the traceability of materials from FSC®-certified forests. FSC® is dedicated to promoting responsible management of the world's forests.

Images are illustrative of the certifications held by the company Tino Sana srl

# FOUNDA TION

# OSANA ATION

At the basis of a company's growth are several components that must travel on the same track: production, thoroughness, humility and firm leadership. These are the basic principles laid down by Tino Sana and on which the work of the Foundation of the same name is based.

IT IS NOT  
POSSESSIONS  
THAT COMPLETE  
AN INDIVIDUAL,  
BUT PASSION  
AND LOVE FOR  
ONE'S WORK.

Each personality has a value that makes up an organic whole that traces the historical stages of the craftsmanship profession, in the Carpenter's Museum, carries the profession forward in business and looks to the future with the training of tomorrow's carpenters.

**MEMORY, PRODUCTION  
AND LEARNING**

# CARPE MUSEU

# NTRY M

THERE CAN  
BE NO  
MODERNITY  
WITHOUT  
TRADITION.

To this end, the Company has decided to celebrate its passion for woodwork with a Carpentry Museum, a heartfelt project tracing the history of wood.

**INAUGURATED, ON ITS EARLIEST PREMISES, IN 1987, THE MUSEUM HAS BECOME A CULTURAL LANDMARK OF THE HIGHEST LEVEL.**

On display is a range of ancient woodworking tools from all regions of Italy. These original artefacts tell the story of woodwork from the 17th to the early 20th century. Special attention is dedicated to the raw material - wood - investigated both from a production and a cultural perspective. The Museum also hosts a section dedicated to the bicycle, a veritable symbol of popular Italian culture, linked with major sporting traditions. Tinosana created 220 wooden bicycles, tested and patented by Bianchi, one of which is on display at the Museum of Science and Technology in Milan, as well as at the company's headquarters.

# CARPENE SCHOOL

# NTRY L

## THE ART OF WOOD WORK

ANOTHER IMPORTANT  
DEMONSTRATION OF  
TINOSANA'S PASSION  
FOR THE ART OF  
WOODWORK IS THE  
CREATION OF THE  
CARPENTRY SCHOOL,

founded in 2006, and reopened last year -  
with the inauguration of the new headquarters,  
directly within the premises of Tinosana -  
with the aim of promoting a more direct link  
between students and the world of work.

The professional course for "Wood and  
Furniture Operators", always in great demand,  
is run by Fondazione Museo del Falegname  
Tinosana and ABF - Azienda Bergamasca  
Formazione, with the collaboration of  
Confindustria Bergamo. The course boasts  
around one hundred graduates and  
approximately ninety currently enrolled  
students. The school, with its workshop fitted  
with machining centres and CNC machines,  
trains professionals in line with the real needs  
of enterprises: not just apprentice carpenters,  
therefore, but skilled operators capable of  
working wood using the most innovative  
technologies. Because carpentry is all about  
tradition combined with innovation.
